## Institutional Distinctiveness

The vision of the college is to serve the society, with its special attention to the marginalized section. The college apart from imparting educational degree to its students gives priority to the society. The college thus, making full use of its prime location, its active student participation and teachers and staff, gave its full co-operation in a camp organized by district administration for handicap children and senior citizens above sixty years of age, living below poverty line. This was an activity which the college handled very well. Each and every person was taken care of. Those people who did not have a medical disability certificate were provided with it. It was easy for them to get the certificate in the camp; otherwise they would have to queue for days at the medical office. A certificate was also provided for senior citizens who had completed the age in their Aadhaar Card and BPL card. An Optometrist, dentist, and orthopedic all were present to check the disability of the person and decide the requirement of the person. A list of peoples' requirements was prepared by the team. After a month people were asked to collect their equipments from a camp organized at a different point by the district administration. This however left the people very happy and satisfied. This was a distinct activity in which the performance of the college in the year 2019 was outstanding. The college looks forward to take up such activity in future with great thrust.
